- Sample Agreement to Jointly Raise a Child
- Sample Cohabitation Agreement #1
- Sample Cohabitation Agreement #2
- Sample General Power of Attorney
- Sample Living Will

References

Index

‘This book provides an excellent guide and reference for clinicians of all specialties who treat lesbian, gay, or bisexual patients, whether they are aware or not of which of their patients fit into this category.’

from the foreword by Marshall Forstein, MD, Assistant Professor of Psychiatry, Harvard Medical School

‘Medicine would do well to adopt this book as compulsory reading for all students in the field and those interested in updating their knowledge of lesbian and gay health care. This book should also serve as a very welcome reference guide for all other health care providers.’

from the introduction by Ruth Simkin, MD, CCFP, Palliative Care Physician, Victoria Hospice Society
